1

Remove all the HTML code generated by default in the `consumer/lib/consumer_web/templates/page/index.html.heex` file, and add a single canvas with an `id`.

If you need a hint, click the "Show Hint" button below:

2

Hide Hint

Add a single `<canvas>` tag with `id="chart-canvas"`.

If you're unsure how to create a canvas, click the "Show Solution" button below:

3

Hide Solution

- Remove all the code generated by default in the `index.html.heex` file.
- This is the updated `index.html.heex` file:

```
<canvas id="chart-canvas"></canvas>
```
